

As a child, my parents and I were told that I did not need braces and that a simple retainer would straighten my teeth. However, it did not work. My smile has bothered me for many years to where I would avoid smiling all the time; you know that closed smile that just looks fake. When I found out Dr.Higham did Invisalign, I knew it was time to do what I have always wanted to do...straighten my teeth. Resulting in having the confidence to smile and laugh without being self conscious and knowing that I am taking care of the health of my teeth and gums. It has been amazing, the process and results have been easy and quick. Every two weeks I see a remarkable change. My dental relationship with Drs. Higham and Sauchelli goes back many years and I have always had complete trust and confidence in them, therefore, without them I wouldn't be smiling as much as I do now if it were not for their dedication and professionalism. Dr. Higham and Invisalign just make sense.
