

# A dentist for all my needs.

– Patient: Vern W.

I used to dread dental visits even though I always had great teeth. Now in my 50's, I realized they needed major attention. When I was recommended to Dr. Sauchelli, I knew I had stumbled upon a dentist with a comfortable professionalism. I needed implants and restoration and trusted him to do all the work right in his office. He's a real guy and made it easy for me to handle. The bonus - I have great teeth AGAIN!
